ABOUT ME

Full Stack Developer specializing in Laravel and Node.js with strong frontend knowledge in HTML, CSS, and JavaScript. Experienced in building scalable web applications including student and result management systems. Skilled in REST API development, database design, and backend optimization. Passionate about writing clean code and developing efficient, user-friendly solutions.

EDUCATION

Maharaja Krishnakumarsinhji Bhavnagar University 2023 - Presents

Bachelor of Computer Applications (BCA)

Relevant Coursework: Data Structures, Algorithms, Web Development, Database Management.

PROJECTS

2025 - 2026

Parinam Setu – Student Result Management System

Developed a comprehensive student result management system using Laravel/Node.js to manage university, college internal, and test results. Automated the fetching of university-declared results and generation of student rankings based on final exam performance, replacing a 10+ day manual process with a system that delivers results for all students within 15 minutes, reducing processing time by approximately 95% while improving accuracy and transparency.

Tech Stack: *Laravel, Node.js (Express.js, automated background tasks), PHP, JavaScript, MySQL, REST APIs, JWT Authentication, Postman, Git, GitHub, phpMyAdmin, XAMPP, VS Code, MVC Architecture.*

Gujju Ebook – Digital E-Book Platform 2025

gkmaza.com/apps/gujjuebook/admin

Engineered a modern digital e-book platform with a robust Core PHP backend and secure admin panel. Implemented role-based access control for granular permission management and developed comprehensive CRUD-based REST APIs for books, authors, categories, sliders, and user authentication. Enhanced data security and content management efficiency.

Tech Stack: *Core PHP, HTML5, CSS3, JavaScript, MySQL, REST APIs, Role-Based Access Control, CRUD Operations, phpMyAdmin, Postman, Git, GitHub, XAMPP, Visual Studio Code.*

TECHNICAL SKILLS

- **Backend Technologies**
  Laravel, Node.js
- **Database Management**
  MySQL, Oracle
- **Authentication & Security**
  JWT Authentication,
  Role-Based Access Control
- **Frontend Technologies**
  HTML, CSS, React Js
- **Architecture & Concepts**
  MVC Architecture, Backend Workflows
- **Tools**
  VS Code, Postman, npm, Composer
- **Programming Languages**
  PHP, JavaScript, Java
- **Version Control**
  Git, GitHub

SOFT SKILLS

- **Problem Solving**
- **Team Collaboration**
- **Creativity**
- **Critical Thinking**
- **Time Management**
